End User Requirements and Recommendations for LMS and SIS

STRONGMIND℠

These minimum requirements do not guarantee that every system configured following these recommendations will be optimal or work for a particular use. It is the end user's responsibility to maintain their computer systems and secure their operating systems. It is recommended that proper maintenance be done on a regular basis, and that anti-virus / anti-malware solutions be installed, kept up to date and run regularly.

Internet Speed
- For best student experience broadband is recommended.
- Computer Lab Bandwidth: dedicated 10Mbps is recommended for lab sizes ranging from 50 to 100 students
