# Istation Application Navigation

By logging into Istation through the Istation Application, scholars are able to take a grade appropriate ISIP Assessment and work in the Interactive Instruction. [ISIP= Istation's Indicators of Progress]
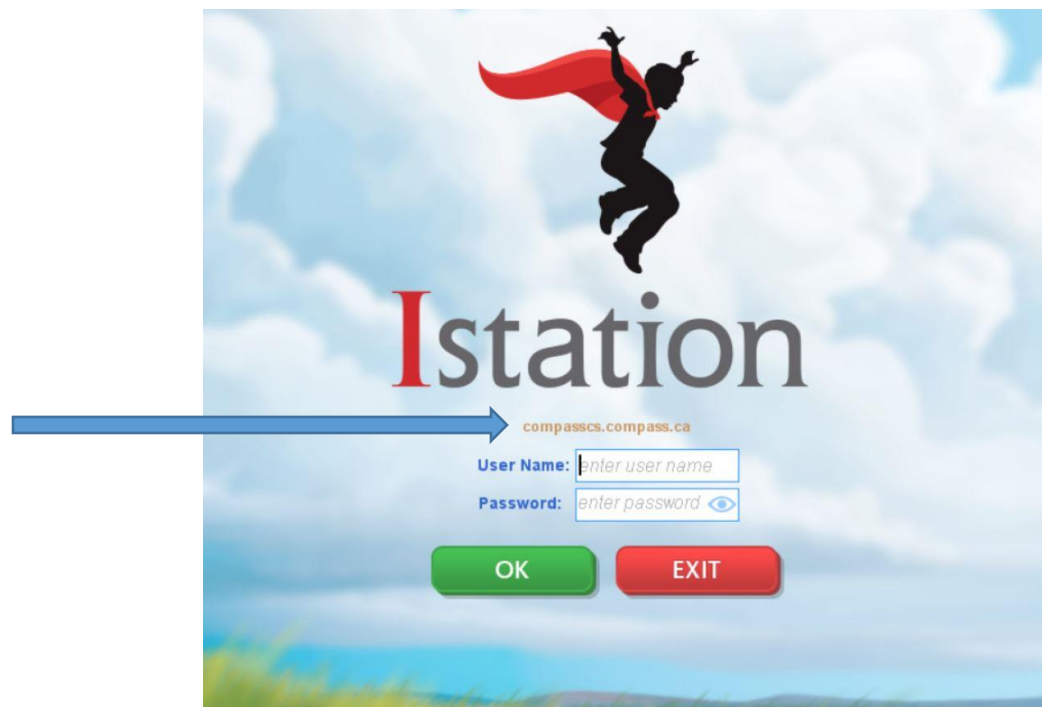

Logging In:

Scholars will need their account information to access the Istation Application. Additionally, the program must already be installed on the computer. Install Istation by going to www.istation.com/Support and follow the instructions to install Istation on your home computer. Once you download Istation, find the icon on your computer's desktop.

1. Open the Istation Application icon. The first time you log in, the prompt will have you select the school. You only have to do this once. You can search for "Compass Charter Schools".

2. Look for the domain above the log in form to verify you set the school to Compass. Scholars will enter their user name and password on the login screen. User names <u>do not</u> need to be typed with the CAPS lock on.

3. On the products menu, scholars will select the appropriate activity by clicking on the corresponding button. Scholars will use "Reading with ISIP" and "Math with ISIP" to access the assessments and instruction.

The first time each month that your scholar logs in, they should take the Reading with ISIP and Math with ISIP assessments. The assessments should take about 30 minutes each.

Once the ISIP in Progress icon is no longer visible at the bottom of the screen, the assessment is over. Your scholar may continue to work in the Instruction, but make sure they do both assessments.
